

Starting September 15, 2010

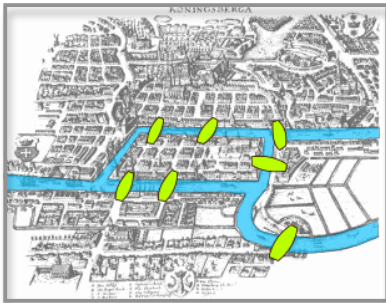

MARIN MATH CIRCLE

Wednesday evenings 6:30 – 8:00

Dominican University
of California
San Rafael

Open to all students in grades 6-9 who like
fun, challenging math problems

Is it possible to walk through the city,
crossing each bridge exactly once?

How many pieces can you cut a
watermelon into with 4 straight cuts?
(You aren't allowed to rearrange the
pieces between cuts.)

Sign up now!
at www.marinmathcircle.org
or call 415-257-0118

In addition to weekly sessions, the Marin Math Circle offers
opportunities to participate in local and national math contests,
including the American Mathematics Contest in November and the
Bay Area Math Olympiad in February.
